

Week 1 (Spring 2) – What can we see on the farm?

This week we plan to...

- Start our new topic '**Down on the Farm and Lifecycles**'.
- Read a non-fiction book about all about **farm animals**.
Discuss which animals live on the farm and draw a picture of our favourite.
- Watch a live feed at farm and discuss the animals we see.
- Sort animals that live on the farm and animals that do not.
- Match animals to their young and practice using the correct vocabulary.
- Listen carefully to clues and guess which farm animal is being described.
- Sing '**Mary had a Little Lamb**'. Where did Mary and the lamb go?
- Learn all about the concept **soft**. Sort objects that are soft/not soft.
- Look at different amounts of objects and talk about which one has more / less. How do we know?
